

# FEES 2025

ACSL has been proud to offer webinars and the majority of our professional learning free of charge. This initiative has been a rewarding opportunity to support the growth and understanding of safeguarding within the Catholic Church.

To continue providing high-quality and impactful learning experiences, we are introducing a modest fee structure commencing January 2025. This difficult decision allows us to take significant steps forward in the value we provide, including:

- **Access to Leading Experts:** Your contributions will enable us to engage a broader range of highly regarded presenters and subject matter experts, enriching the depth and quality of the content we offer.
- **Enhanced Resources and Content:** The introduction of fees supports the creation of additional innovative learning materials and delivery methods tailored to your needs.
- **Sustainability and Growth:** This change ensures that our professional learning space can grow sustainably while continuing to prioritise your professional learning.

We are committed to keeping our offerings affordable and accessible while maintaining exceptional value. Our pricing structure will remain minimal and aligned with the high-quality learning experiences you have come to expect from us.

For more details about pricing, please visit our [Learning Management System](#).

**Additional Feature** - Safeguarding co-ordinators have the option to enrol multiple learners and track their progress.

Thank you for choosing to learn with us. We look forward to continuing to support your professional journey
